I want to take a moment to thank everyone for their prayers and for helping to get the word out. I've been getting some questions and I wanted to clarify a few things.
I downplayed the graphic experiences because everyone has a different level of comfort and I wanted people to

hear the entire story and not click off. I had to leave out most of what happened to my wife because I could not have gotten through it and continued. Like leaving her cuffed in the corner for 22 hours, laughing/taunting when she needed to use the bathroom or take medication,

they refused and laughed at her, told her to shut up and piss her pants. There was "touching", I can't even see my phone right now this is taking several attempts to get through. And no warrants at all they just did it.

And there is a entire Spiritual side that I didn't mention because I can't even think about it without being overwhelmed.

There were lots of "interrogation sessions" where

they would beat me while chained to a chair, or I would be chained bent forward and cuffed to the bottom so my chest was on my lap, and they would sit on my back until I couldn't breathe and pass out. Then use little inhalers to wake me up and start over. Towards the end I was so

bad those didn't work any more. And through all of this they couldn't see who was in the room with us. Who was standing next to me. On one particularly bad day when they were laughing and enjoying themselves because they were missing their time off to spend with me.

I had already passed out a few times, had already shit my pants and pissed on myself twice. They drug my chair over to the sink to try something new. They were going to water board me. But all they could find was a little scrub bucket under the sink, big enough to make me choke

but not enough for the affect they wanted. And through all of this I would smile occasionally because of who was standing beside me. The smiling enraged them so they drug me outside and one went and got the fuel cans. He said something like, keep laughing, I'm not sure.

The overwhelming burning throughout my body and lungs I can't describe. It hurt too bad to pass out. And then I noticed HE was holding my hand and two words went through my head,
"Worth it". Worth of all of this to touch HIS hand. And then I felt sorry for them because they

would never know the peace I felt at that moment. And it has never left. I have to stop here. Thank you everyone.

To Rod, Brennan, Comey, Mueller, Holder, Lynch, McCabe, Page, Strzok, and many others. My dearest friends, remember all those debriefings? Those tasking meetings? How bout when you threatened me and my family to betray Trump? Remember the intrusive strip searches and pat downs

Let's talk about James Comey, that tall drink of stupid. Many people are upset the DOJ declined to prosecute him for "leaking" classified "memos" to his attorneys and others. It's a gray area, he wrote those memos as director and they weren't classified then, only later by

someone else. A smart move by Barr not to prosecute ESPECIALLY when Trump/Barr knew this. Here are SOME of the people involved. There are more people involved now but after Jordan Kelly was outed I received a call from my

Why not, I'm sick of these bastards. FBI DOJ politicians etc, all have gov pensions. But the top levels have private investments, often in their children's name, and those account brokers always get a heads up before a FF or major "catastrophe" like 9/11, recent very selective

House fires in California, think insurance companies, so the stocks can be manipulated accordingly for maximum profit.

Alright so story time.

For the past 6 months your boy has been on a tough road and I would like to share my struggles (and triumph)

In September I was unexpectedly let go from my previous employer #theV which came with much shock and a bit of resentment. However the game is the game so I can’t be mad at that. Side note: these companies aren’t loyal to you remember that.
